

## HOW TO / create a custom copy

1. My Account > My Listings
2. Find the Listing you would like to copy > click Create Custom Copy and click Okay.

3. Add all of the listing information, and click Save. Add the Custom Listing Link where you wish the listing photos to link.
4. Then, add any photos, re-order, Save Order, and click Save again.

This listing will now be a Custom Listing. When you add a custom listing to a template, you will find it in the drop down menu as “Custom” as opposed to “Residential”.
