

HOW TO / see your listings

Your Listings are under My Account > My Listings.

If your listing is missing from rezora, please make sure that your listing pulling from an MLS that is integrated with rezora. If you selected “Private” or “Display Online? No” when you submit your listing data to the MLS it will not be pulled into rezora. Please unselect “private” or “no” and your listing(s) will populate.

| How to add your agent ID: |

You will need to select your MLS/Feed from the drop down menu in the MLS Agent ID box, then enter your ID, and click Add New ID. After you do this, your listings should populate under My Account > My Listings.

Depending on how frequently the source provides updates, it could take up to 24 hours for your listing to appear in rezora. It is dependent on when we receive the data from the MLS. If you have any specific questions about your MLS, please contact your marketing team. If you believe your listing should be available, contact support and we can help you find it! If all else fails, you can always create a custom listing!
